

HTX Minerals Corp. is a mineral exploration company with a head office in Sudbury, Ontario, developing a portfolio of Ni-Cu-PGM exploration properties in North America. HTX is currently seeking to fill the following permanent position:

Exploration Geologist (minimum 5 years experience)

Reporting to the Vice President of Exploration, the Geologist will be responsible for contributing to the development and implementation of Ni-Cu-PGM exploration projects carried out from the Sudbury office. The successful candidate will provide practical project management services, planning and implementing exploration activities and supervising staff and contract personnel, in a multi-project environment. Working within a small team of seasoned explorationists, the position will directly contribute to the corporate strategic exploration plan and long-term success of the company.

The ideal candidate will possess:

- a degree in Geology or Earth Sciences
- minimum 5 years of direct exploration related experience
- strong geological and project management skills
- a willingness to spend extended periods in the field
- excellent written and verbal communication skills
- familiarity with First Nations and community relations
- working knowledge of modern GIS and 3D software platforms
- eligibility for P.Geo. registration in Ontario

HTX Minerals Corp. offers a competitive compensation and benefits package. Qualified applicants should submit their resumes no later than April 15, 2010 to:
